**Remarks**

**I. Election with Traverse:**

In response to the restriction requirement of the Office Action dated June 13, 2007, Applicants elect the Figure 1 species. This election is being made with traverse on the grounds that the invention of both species can be efficiently searched together.

The claims readable on the elected species include claims 1-15. Applicants believe that at least claims 1-5 are generic.

Respectfully submitted,

Dated: July 5, 2007
